Programming Languages : Python

Database : SQL (MySQL and Oracle SQL)

Frameworks & Tools : React.js, Django

Data Analytics : Excel, Power BI

Languages Known : English, Kannada

Education

Master of Computer Applications (AI/ML)

CGPA: 8.0

Surana College Autonomous, Bengaluru

2023 – 2025

Relevant Coursework: Artificial Intelligence, Data Structures & Algorithms, Networking, Python, Machine Learning, Deep Learning, NLP, Data science,

Bachelor of Computer Applications (Computer Science)

CGPA: 6.5

Government Science College, Chitradurga

2019- 2022

Relevant Coursework: Software Development, C, C++, PHP, JavaScript, Networking, Data Structures & Algorithms

Internship Experience

QSpiders Incubation Program – Technical Trainee (Full Stack & Data Analytics)

Bengaluru

June 2025 – April 2026

Completed intensive hands-on training in Python Full Stack Development and Data Analytics.

Learned front-end (HTML, CSS, JavaScript, React.js), back-end (Python, Django), and database (MySQL) development.

Built mini-projects on data visualization, web app development, and analytical problem-solving. Improved real-world debugging, teamwork, and project management skills.

Projects

Online News Portal

Sept – Oct 2025

Web-based platform built using Django, Python and MySQL; enables admins and journalists to publish, manage, and categorize news articles with real-time updates across politics, sports, and entertainment. Features secure authentication, content management, search functionality, and a comment system for an interactive and scalable news publishing environment.

Car Washing Management System

Feb – Mar 2023

Modern web app using React.js and MongoDB to automate car wash operations. Improved business efficiency through digital tracking and management.

Event Management System

Sept – Oct 2022

Web platform built using PHP and MySQL for managing and registering events. Admins can create and track events; users can register easily.
